Address

Kundrathur, Chennai.

Education

Chennai institute of technology and applied research

2023 - 2027

Bachelor of technology

Artificial intelligence and data science

Expertise

- Developing Algorithms
- Image processing techniques
- Good communication
- Image Analysis
- Spatial data analysis
- Adaptability

Telugu

Experience

2023

Remote sensing

- Experienced remote sensing specialist with a strong background in geospatial analysis and data interpretation.
- Passionate about leveraging remote sensing technology to address environmental challenges and contribute to sustainable development initiatives.
- Seeking opportunities to collaborate on impactful projects and further enhance expertise in the field of remote sensing.
- Proficient in utilizing various remote sensing software and programming languages to extract valuable insights from satellite imagery.
- A proactive team player with strong communication skills, I am eager to collaborate with like-minded professionals to make a positive impact in the field of remote sensing.
